CAREER OBJECTIVE

Detail-oriented IT graduate with hands-on experience managing technical operations, system troubleshooting, and hardware configuration. Proven track record in maintaining equipment reliability, diagnosing technical issues, and delivering exceptional client support. Eager to leverage strong analytical skills and technical expertise to contribute to a dynamic technical operations team.

WORK EXPERIENCE

CL Audio Pro Audio Rental
Dec 2025 - Present

Owner & Sound Engineer

- Manage end-to-end business operations, client booking, and marketing for an independent sound system provider.
- Oversee live audio engineering, equipment configuration, and signal routing using professional mixers, controllers, and active PA systems.
- Maintain technical reliability of hardware assets and ensure seamless on-site event production execution.

PMX 515 Prime Trading Inc.
April 2025 - July 2025

Audioman

Managed equipment ingress, setup, and egress for live events, while handling post-event cleaning, systematic inventory checks, and functional testing to ensure all audio assets remained fully operational.

RVN Technology Solutions Inc.
Feb 2023 - Sept 2023

Junior Software Developer (Intern)

- Contributed to the development of the company website using HTML5, CSS3, JavaScript, SMTP, and PHP.
- Documented system APIs and utilized Postman to test, verify, and ensure backend endpoint functionality.
